# ATRA ACE

ON-SITE HOLE CUTTING IN STEEL PLATE, H-BEAM, SHAPED BAR, FRAMEWORK, SHIPBUILDING & BRIDGE CONSTRUCTION.

NITTO KOHKI Australia is the sole distributor of Japanese-made precision Atra Ace Magnetic Drilling machines. These innovative, superior quality Atra Ace tools provide users with an exceptional drill management experience as well as advanced safety, versatility and efficiency. The Atra Ace range includes the lightweight 7kg Cordless CLA-2720, as well as Manual and Automatic options.

The WO-3250A and AO-5575A Atra Ace manual feed models lead the way, being the World's first manual feed machines with 'Smart-Stop' and 'Rapid-Restart technology'. This exceptional safety feature detects when excessive load or side-slipping occurs. The drill model will then automatically shut down, and the motor 'start' switch is required to be depressed to resume drilling.

NITTO KOHKI Australia has developed an extensive range of Ozbroach annular HSS cutters to compliment the Atra Ace models and most other brands. These high-speed steel cutters combine superior technology in geometry and heat treatment, to provide a durable, cost efficient product suitable for all grades of mild steel. These tough Ozbroach cutters make holes three times faster than twist drills.

NITTO KOHKI's Atra Ace range is designed to boost productivity in the Steel Fabrication Industry, with high performance and premium cost control.

Change your workmanship and upgrade to the world's most advanced Magnetic Based Drilling Units today.

### Absorbent pads and rolls

- Poly absorbent pads and rolls are the modern day replacement for waste rags and kitty litter in the workplace
- Grey coloured absorbents are designed for general purpose (all-liquid) spills
- White absorbents are hydrophobic and will not absorb water, making the ideal for oil and fuel spills in wet or damp environments
- Pink absorbents are designed for use with harsh chemicals and will not react to aggressive liquid spills
- Excellent for wiping down oily equipment or place under or around leaking machinery.
- Made in Australia
